

WEST CHESTER UNIVERSITY
invites applications for the position of:

20-163 Tenure-Track Position, Biomedical Engineering Program

SALARY: Not Displayed

OPENING DATE: 07/10/20

CLOSING DATE: Continuous

POSITION SUMMARY:

Join a vibrant campus community whose excellence is reflected in its diversity and student success. West Chester University invites applicants for one tenure-track position in the Biomedical Engineering (BME) program in the Department of Physics and Engineering. We are looking for individuals whose primary research interest is in Biomechanics or Medical Devices. This position starts in August 2021. The position is offered at the Assistant Professor level, but exceptionally well-qualified candidates with significant experience can be considered for the rank of Associate Professor. Starting salary is commensurate with experience. The successful candidate will work from the Department of Physics and Engineering within the College of the Sciences and Mathematics.

MINIMUM QUALIFICATIONS:

- Applicants should have earned a Ph.D. in Biomedical Engineering, Bioengineering, or a closely related engineering discipline;
- The successful candidate must be able to teach the associated courses in the BME curriculum.

PREFERRED QUALIFICATIONS:

- Preference will be given to candidates who have potential for excellence in teaching and high-quality research as documented by publications in peer-reviewed journals in the biomedical engineering area;
- Candidates are expected to develop research and outstanding undergraduate teaching programs in their area(s) of specialty. This includes developing undergraduate courses, academic advising, and being actively involved in the ABET accreditation process.
- Candidates at the rank of Associate Professor should have a distinguished record of research and teaching activities.

SPECIAL INSTRUCTIONS:

Selected applicants will be invited for phone/teleconference interviews. On-campus interviews occurring in the November 2020 will include a demonstration of teaching as well as a research presentation.

Applicants should submit a cover letter, curriculum vitae, a brief statement of research plans, a description of teaching philosophy, and a list of three references with contact information to our online application system at:

<http://agency.governmentjobs.com/wcupa/default.cfm>. If selected for an interview three

references letters will be required prior to proceeding.

Review of completed applications begins on **October 5, 2020** and continues until the position is filled. Applicants must successfully complete the interview process to be considered as a finalist.

West Chester University is a comprehensive university of 15,000 undergraduates and 2,000 graduate students in a limited number of Masters programs. The Department of Physics and Engineering consists of 11 faculty members and offers a B.S. in Physics and Biomedical Engineering, and B.S. Ed. in Physics as well as participates in cooperative Physics-Engineering dual-degree programs with other universities. For more information about the University, the Department and BME program, please consult our web pages.

Developing and sustaining a diverse faculty and staff advances West Chester University's educational mission and strategic Plan for Excellence. West Chester University is an Affirmative Action – Equal Opportunity Employer. Women, minorities, veterans and individuals with disabilities are encouraged to apply.

All offers of employment are subject to and contingent upon satisfactory completion of all pre-employment criminal background checks.

For information on the University's crime statistics, which is available in a publication called "Your Safety Is Our Concern", please contact Public Safety at 610-436-3311 or by accessing the following website: <https://www.wcupa.edu/dps/documents/clery.pdf>
