PROS

Postdoctoral Research Opportunities *in* Science

Baylor College of Medicine invites outstanding senior graduate students to apply for PROS—Postdoctoral Research Opportunities in Science.

THIS VIRTUAL VISIT TO HOUSTON WILL PROVIDE YOU THE OPPORTUNITY TO:

- Meet with faculty and current trainees in labs that match your research interests
- Discover the benefits of pursuing biomedical research in the Texas Medical Center—the largest medical complex in the world
- View extensive research resources that support greater than \$500 million in funded research annually
- Learn about our career development and postdoc support programs
- Get a taste of Houston—the nation's 4th largest and most diverse city
