

# 3D Microfluidics & BioFabrication Lab

## Research:

- 3D engineering of devices, materials, nanovesicles, and biomimetic tissues
- Immunity communication and delivery for cancer immunotherapy and vaccines

## Collaborating Faculty:

- Immunology: Dr. Jodi McGill (KSU)
- Oncology: Dr. Andy Godwin (KUMC)

### Director:

Mei He, Ph. D.  
(U Alberta, 2008)  
Assistant Professor,  
ChemE /Chemistry  
[meih@ku.edu](mailto:meih@ku.edu)

**Funding Sources:** NIH, USDA

## Tracks:

- Biomaterials & Tissue Engineering
- Biomedical Product Design & Development
- Biomolecular Engineering
